🏠 Old Muslim Town
Lahore, Pakistan

Arslan is a seasoned web developer proficient in a comprehensive array of programming languages and technologies. With expertise in **HTML, CSS, JavaScript, Bootstrap**, and **jQuery**, he crafts visually stunning and interactive web experiences. His proficiency extends to back-end development, with a strong command of **PHP, Laravel, C#, and SQL Server**, enabling him to build robust and scalable web applications. Arslan excels in **WordPress** customization, leveraging his skills to create tailored content management solutions. Additionally, his proficiency in Microsoft Word and Excel streamlines documentation and data management processes. With a commitment to staying updated with the latest industry trends, Arslan brings a dynamic and innovative approach to every project, ensuring high-quality deliverables and client satisfaction.

- Developed Green Coffee, an e-commerce website, using PHP.
- Created a user-friendly platform catering to coffee enthusiasts.
- Curated a wide selection of organic and ethically sourced green coffee beans.
- Ensured exceptional taste and quality through careful curation.
- Provided valuable resources including brewing tips and recipes.
- Demonstrated proficiency in PHP programming and web development.
- Showcased passion for delivering high-quality digital experiences.

Calculator

<https://muhammadarслан6464.github.io/Calculator/>

Tools: HTML , CSS and JavaScript

- Developed a web-based calculator application from scratch using HTML, CSS, and JavaScript.
- Designed a user-friendly interface with a modern and clean look.
- Focused on a responsive layout for both mobile and desktop devices.
- Implemented mathematical functions, including addition, subtraction, multiplication, and division.
- Ensured accurate results for all mathematical operations.

My Portfolio

<https://muhammadarslan6464.github.io/Portfolio/>

Tools: HTML , CSS and JavaScript

- Developed and designed a personal portfolio website showcasing my skills, projects, and experiences in web development.
- Created a modern and visually appealing user interface to highlight my work and expertise.
- Utilized HTML, CSS, JavaScript, and possibly other technologies to build the website from scratch.
- Implemented responsive design principles to ensure optimal viewing experience across various devices.
- Included sections such as About Me, Resume, Projects, Skills, and Contact to provide comprehensive information to visitors.
- Demonstrated creativity, technical proficiency, and attention to detail in crafting the website.
- Strategically optimized the website for search engines to enhance online visibility and accessibility.
- Acted as a digital hub to showcase my capabilities, attract potential employers or clients, and network within the industry.
